

2022 HAZARD HUNT MILESTONE 1 HAZARD IDENTIFICATION

K-TOWN TOTAL MAINTENANCE
CONTRACT (TMC)

**SECURES HAZARDOUS GOODS
DURING TRANSPORT**

K-Town TMC focused their energies on hazardous goods needing to be secured during transport in accordance with recognized standards. Approved load securing belts, anti-slip mats, and special airline-brackets were just a few of the improvements made to the transport process. In addition, all applicable employees receive safety training and an accident insurance certified subject matter expert is housed at the Main Work Center. Their solutions to potentially dangerous situations **earned this team 2nd place in the 2021 Hazard Hunt!**

FOR **MILESTONE 1 – HAZARD IDENTIFICATION**, TEAMS SHOULD:

- Identify a minimum of one safety hazard on your program.
- Take a video or photos of the hazard after it is resolved. Make sure the photo file sizes are each 1MB or larger and include people. Ensure each individual included in photos signs an [Image Release Form](#) found on the [Hazard Hunt web page](#).
- Write a summary with the who, what, when, where, and why these items are a safety, occupational health, or environmental hazard.
